achieve*

June 2021

Dear Parent/Carer

## Transition Activities

At Thurston Community College, we recognise the importance of a positive transition experience for children as they move from primary to secondary school. Our aim is that pupils will feel both reassured and excited about moving on to the next stage of their education.

Your child currently attends one of our local primary schools and, whether or not they will eventually become members of Thurston Community College, we would like to extend a warm invitation to a number of exciting transition activities which will take place this term.

### Summer Term 2021

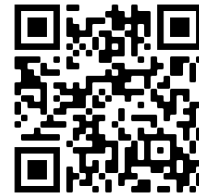

#### Year 5 Primary School Visits to Thurston Community College

These visits will be led by our Transition Coordinator, Kate Drury. Your child will participate in a tour of the College, where they will learn about our exciting learning opportunities and have a chance to ask questions.

Details have been shared directly with Primary School.

#### Bespoke Tours of the College

We are offering tours for parents/carers and primary pupils who wish to see the College in action during a normal working day. Tours will last about an hour and will be led by the Transition Coordinator or a member of the College Leadership Team. To book a tour, please complete the following Google Form, or use the QR code;

[Year 5 Tour - Booking Form](#)

### Autumn Term 2021

**Primary School Sports Event** (Exact date TBC) September 2021
